

Post Amniocentesis Instructions and CVS

Dear Patient

Today you had an Amniocentesis by DR. _____
at our center.

You may experience some cramping following your procedure. However, if you have fever, severe cramping, vaginal bleeding, or leakage of fluid, please call your obstetrician. We ask that you also let us know. You may remove the band-aid in 24 hours.

Your physician will be notified of your results in approximately 14 business days.

Please Follow these simple instructions to assure a speedy recuperation:

- Do not perform any strenuous exercise or activity for the next 48 hours.
- Do not swim or bathe for 48 hours. You may take a shower.
- We suggest that you refrain from airline travel for 2-3 days following the procedure.
- You may return to your normal work schedule in 1-2 days.

Thank you for the opportunity to participate in your care. We also welcome any comments/suggestions that you may have that will improve the services we provide.
